Asset position in constituency among candidates and chances of winning

The following table gives an analysis of asset position in constituency among candidates (highest asset to lowest asset) and their chances of winning. From 8 or 29% constituencies, candidates with highest declared assets according to their own self sworn affidavits emerged as MPs. From 32% constituencies candidates with second highest declared assets won. The number of MPs kept decreasing according to their position based on assets in the constituency as per their self declared affidavits. This clearly shows how higher assets significantly increase chances of winning.
