“Vote Share” and “Representativeness” of MLAs elected in 2009 Assembly Elections from Haryana

Association for Democratic Reforms and Haryana Election Watch have analysed the percentage of votes won by the MLAs of Haryana in assembly elections, 2009 and their representativeness among the total number of registered voters. The data disclosed by the Election Commission of India on their website (http://eci.nic.in/eci_main1/index.aspx) has been used for this report.

The percentage of representativeness was calculated by dividing the votes polled for the winner **by the electorate** i.e. the total number of registered voters. This value represents the percentage of votes won by the winning candidate among the total number of registered voters in the constituency.

$$\text{Representativeness} = \frac{\text{Total Votes Polled for Winner}}{\text{Total No. of Registered Voters}}$$

The percentage of vote share was calculated by dividing the votes polled for the winner **by the total number of valid votes**. This value represents the percentage of votes won by the winning candidate among the total number of valid votes polled.

$$\text{Vote Share} = \frac{\text{Total Votes Polled for Winner}}{\text{Total No. of Valid Votes Polled}}$$
